Superfood Elite™ is a remarkably healthy product that is packed full of 29 ingredients including vegetables, fruits, sprouts, algae, grass juices and enzymes. This genuine superfood concentrate is carefully processed to retain its full bio-activity. Chlorophyll from greens such as chlorella, wheat and barley grass helps to support the production of red blood cells.

Spirulina is packed full of proteins and essential amino acids. The vegetable juice blend of carrot, beet and tomato provides amazing goodness. Fruits like acerola berries are added for their natural antioxidant content. Sprouts and bio-active mushrooms both have naturally occurring active enzymes.
